

## TUTOR YOUR OWN OR HOMESCHOOL

### PERSONAL ASSISTED LEARNING

**WHAT** Part or full time tutoring. Personalized levels (K-8). Learning disabled to gifted. Nation's least costly and most effective. Legally can replace public schooling. Phonics based reading and spelling. More effective than advertised phonics programs. Very little parent involvement except for very young. Consistent and easy monitoring of progress. Fraction of cost of tutors or private schools. **Guaranteed at least 4 times the progress of U.S. schools.**

**WHY** All parents can teach. No travel costs or time. Privacy and safety of your own home. Master basics. Develop interests. Schedule own hours (3-15 hrs. per week). Develops communication with the student(s). Know what your child is learning.

**HOW** **FREE** download

**Satisfaction is guaranteed.**

**PLUS** The manual's Business Mechanics for a super learning center income and service is described on the next page.

Contents may be copied for school or personal use but not for resale. You WILL obtain the resulting guarantee when the PAL guidelines are followed. The guarantee is listed on the next page.

Chapters from the Business Mechanics section are also listed on the next page.

## LEARNING CENTER BUSINESS

- Part or full time income to \$100 or more per hour for your time
- Needed in every community
- Great income for Churches and youth organizations
- From your own home or local business site
- Earn while you learn, even more as a director than a trained teacher.
- More freedom to teach effectively
- Save money and preparation time.
- Offer tutoring, GED prep, tutor training for “free” tutors, schooling, and home support.
- Using P.A.L. guidelines, all students will achieve the guarantee.
- No student over 6 years of age has failed to reach guarantee following guidelines.
- Guidelines assure all students will get personal contact at least 5 times during each 1½ hour session of tutoring.
- Teaching credentials helpful but not necessary.
- Easy step-by-step guidelines to set up and direct your services

<b>AVERAGES</b>		<b>25.7</b>	<b>1.1</b>	<b>1.8</b>	<b>1.1</b>

(These are actual scores in one of the pilot programs)

Typically, a student spends an average of 26 hours tutoring. In that short time, the average student gains more than one year's level. No other system of schooling can guarantee at least one year's progress within 36 hours in reading, math and spelling all at the same time.

Every student who has enrolled in a program that uses PAL guidelines has achieved at least one school year's progress in all three areas.

"The tutoring center is doing well. Children's lives are being changed and we are thankful to you for starting this program for us. The Church receives \$800 per month and it supports many other projects. Thank you. Your time here was a great benefit and it surely pointed me in a direction that fulfills my asking 'God, what do I want to do when I grow up?' It is the most rewarding thing I have ever done." (From a "retired" director who actively tutored)

G.J.  
Oregon

"As you know, our son has been challenged with cerebral palsy and had not even achieved first grade level in 4 years of school. In the 7 months of using your program for only 3 hours a week he has achieved about 2.5 years in reading, spelling and math. The personal approach in (your program) has certainly worked for us and I'm sure should be effective for accelerated students as well as learning handicapped."

A.B.  
Oregon

"My eleven year old son was using (a nationally advertised phonics program) and hated it. At first, he resisted going to your tutor program because of the emphasis you have on phonics. His attitude and self-esteem greatly increased as he attained 3.2 years in only 33 hours for reading. What also is amazing is that he achieved 1.3 years in spelling and .4 of a year in math levels during the same hours. I'm glad your program was recommended to me."

E.C.  
Idaho
